Emergency Kit Checklist

Be prepared for any type of emergency with a three day emergency supply kit. Store your disaster supplies in a sturdy tote that transports easily.

☒Water

At least one gallon per person per day

☒Food

Non-perishable foods like a protein bar, dried fruit or granola

☒Flashlight

☒Battery Powered Radio

☒Personal Care Items

Toilet paper, feminine products, bleach, hand sanitizer

☒Medications

Prescription and non-prescription items and contacts/glasses

☒Matches/Lighter

☒Garbage Bags

☒Special Items

Necessary items for children, the elderly and those with special needs

☒Beyond Basics

For a more comprehensive kit consider items like clothing, small camp stove, camping dishes and silverware, axe or saw, sleeping bag, hand held walkie-talkies, local maps, and books or games for entertainment.

☒Utility Tool

Wrench, screwdriver, pliers, knife, etc.

☒Emergency Whistle

☒First Aid Kit

☒Cash

ATMs, credit/debit cards will not work when power is out

☒Pet Supplies

Food, collar, leash, toys and medications

☒Critical Documents

Copies of medical records, birth certificates, marriage license, passport, etc.

☒Duct Tape

☒Emergency Blanket

☒Extra Batteries

Make Your Cell Phone Your #1 Safety Tool!

Program your cell phone to be your most important disaster tool. Store photos of pets and family members in case you become separated during a disaster. Enter the following information into your contacts with the title as the "Name."

ICE (In Case of Emergency)

First Aid/CPR
List basic first aid tips

Allergies
List any allergies

Medication
List current medications

NOAA WEATHER RADIO

Stay safe from weather emergencies like severe storms, flooding, extreme cold and high winds by purchasing a battery operated NOAA weather radio for your home and office. Weather radios can be programmed to sound an alarm notifying you of active weather events in your county. Outdoor sirens and media coverage require power and can fail; the best way to protect yourself and your family is to have a battery operated radio. Weather radios are available at most home supply stores and should be a part of your disaster supply kit.

Why Pack an Emergency Supply Kit?

During a disaster, it may take first responders three days or more to reach you. If you have an emergency supply kit, you can take care of yourself, your family, your neighbors and your co-workers until professional help arrives. Keep an emergency kit ready for the following situations:

- ☒ **Auto Emergencies**
Food, water, flashlight and seasonally appropriate weather gear
- ☒ **Office Emergencies**
First aid kit, flashlight, whistle, safety vests, radios and water

- ☒ **Evacuation Go-Kit**
Clothing, toys/books, maps, critical documents, cash and personal care items
- ☒ **Shelter in Place**
Plastic garbage bags, duct tape, masks and food and water
